Read the disclaimer and Click "Accept" to continue.

4. Trading page will appear

5. Changing the products to trade

Click to select the product in which you want to trade

6. <u>Changing the Time intervals</u>

Click to change the expiry time that you want trade. One can select any time frame i.e. 1Min, 5Min, 10Min, 30Min and 1 Hour.

7. <u>App Interface features</u>

i. Chart types, Technical Analysis & Cross Hair

ii. Investment Amount & Payout

Use + to increase or – to decrease the amount of investment. You can also enter the amount by yourself. Minimum investment amount starts from Ar. 3,000 per contract.

Payout is a realized return from an investment. If you invest Ar. 3,000 and if there is a profit your return for 60% payout contract is Ar. 1,800 without cost of trading.

8. To trade

When you think that the price will decrease than the current price, one must click a Put order.

When you think that the price will increase than the current price, one must click a Call order.

The below page will appear

≡ ^{GC}	DLD	09:10	60% 230	
		EXPIRY TIME	ACCOUNTS	
		Trade Confirmation		
Order id Account Symbol Contract Up / Down Amount Time to Ex Price Time	n xpire ne	: 1458 : 230 : 60LD-10 : Up : 3000.0 : 0034:20 : 2017-12- : 3179025 : 2017-12-	M 04 09:10:00 00 04 09:05:38	
		Ok		

After trade confirmation the order will be shown in Open Positions tab

After trade expiry, the order will be shown in Close Position tab

Note: The price of call or put order when executed for the first time is called strike price. In order to have profit the current price should be higher than the strike price in case of call order and vice versa.
